CONTENTS

Volume 12

Number 1, March, 1966

S. Ôtsuka, R. Ishii and N. Katsuya: Utilization of hydrocarbons as carbon sources in production of yeast cells 1

T. Ono, K. Kimura and T. Yanagita: Sequential syntheses of various molecular species of ribonucleic acid in the early phase of conidia germination in *Aspergillus oryzae* 13

D. R. Lineback, C. E. Georgi and R. L. Doty: Glucoamylase (α-1, 4-glucan glucohydrolase) production by *Aspergillus niger* as influenced by medium composition 27

H. Minato, A. Endo, M. Higuchi, Y. Ootomo and T. Uemura: Ecological treatise on the rumen fermentation. I. The fractionation of bacteria attached to the rumen digesta solids 39

H. Minato, A. Endo, Y. Ootomo and T. Uemura: Ecological treatise on the rumen fermentation. II. The amylolytic and cellulolytic activities of the fractionated bacterial portions attached to the rumen solids 53

J. Takagi, H. Saito and Y. Ikeda: A comparative study on DNA mediated phage infection and bacterial transformation 71

A. Yuki and Y. Ikeda: Serological and chemical studies on *Escherichia coli* RNA phages 79

A. Echigo, T. Fujita and S. Koga: Relationship between biological and physical properties of dry yeast cells 91

Short Communication

H. Iizuka, I. Tanabe and H. Meguro: Microorganisms in plankton-ice of the Antarctic Ocean 101

Number 2, June, 1966

H. Kuraishi: Death of yeast cells in pantothenic acid deficiency 103

H. Takahashi, H. Saito and Y. Ikeda: Genetic relatedness of spore bearing bacilli studied by the DNA agar method 113

H. Iizuka, M. Iida and Y. Unami: Microbiological studies on petroleum and natural gas. IX. Candidal oxidation of decane 119

M. Tokoro and T. Yanagita: Physiological and biochemical studies on the longevity of *Aspergillus oryzae* conidia stored under various environmental conditions .. 127

S. Higashi: Electron microscopic studies on the infection thread developing in the root hair of *Trifolium repens* L. infected with *Rhizobium trifolii* 147

K. Kadowaki, K. Yamaguchi and B. Maruo: Effect of actinomycin-D on protein, ribonucleic acid, and enzyme formation in *Bacillus subtilis* 157

J. Hoshino and A. Momose: Comparative studies on the two forms of yeast invertase 163

BOUND BY THE NATIONAL BINDERY BINDERY CO. OF GA.

THE UNIVERSITY LIBRARIES OF GEORGIA

C. Roy and S. Mukerjee: Action of polymyxin on cholera vibrios. II. Effect on El Tor vibrios 179

Short Communication

K. Komagata and Y. Tamagawa: Nucleoside phosphotransferase test as an aid to differentiation of *Serratia marcescens* from related bacteria 191

Number 3, September, 1966

H. Murakami, K. Ôwaki and S. Takase: An Aflatoxin strain ATCC-15517 195
M. Okanishi and Y. Okami: Isolation and characteristics of an actinophage active on *Streptomyces kanamyceticus* 207
F. Yoshinaga, S. Konishi, S. Okumura and N. Katsuya: Studies on the fermentative production of L-proline. I. Production of L-proline by an isoleucine auxotrophic mutant of *Brevibacterium flavum* 2247 219
T. Fujita and S. Koga: The binding of a cationic detergent by yeast cells, in relation to its germicidal action 229
K. Tanaka: Change in ultrastructure of *Aspergillus oryzae* conidia during germination 239
S. Hino and M. Maeda: Effect of oxygen on the development of respiratory activity in *Escherichia coli* 247
G. Tomonaga: Preferential synthesis of extracellular protease by *Aspergillus niger* in sulfur deficiency 267
K. Tanaka, A. Motohashi, K. Miura and T. Yanagita: Isolation and characterization of soluble RNA from dormant and germinated conidia of *Aspergillus oryzae* 277

Short Communication

A. Nishi and S. Hirose: Further observations on the rhythmic variation in peptidase activity during the cell cycle of various strains of *Escherichia coli*. 293

Number 4, December, 1966

A. Yamanoi, Y. Hirose and T. Shiro: Studies on the production of nucleosides by microorganisms. II. Formation of ribonucleosides from unusual purine bases by inosine-producing mutant of *Bacillus subtilis* 299
D. Ramkrishna, A. G. Fredrickson and H. M. Tsuchiya: Dynamics of microbial propagation models considering endogenous metabolism 311
E. Tanaka, T. Ono and T. Yanagita: Further observations on the carbon dioxide incorporation into RNA in the early phase of conidia germination in *Aspergillus oryzae* with special reference to soluble RNA synthesis 329
T. Yamakawa, K. Aida and T. Uemura: Phosphorus metabolism in *Bacillus megaterium* during sporulation 339
T. Nakase and K. Komagata: New yeasts, *Endomycopsis musicola* and *Pichia zaruensis* 347
T. Yamakawa, K. Aida and T. Uemura: Spectrophotometric studies on the sporulation of *Bacillus megaterium* 353
